

# Ujala Agarwal

## FRONTEND DEVELOPER | PRODUCT UI AND FULL-STACK WEB

Bareilly, Uttar Pradesh | +91 7906786403 | agarwalujala3@gmail.com  
Portfolio: agarwalujala3-lang.github.io/ujala-portfolio | GitHub: github.com/agarwalujala3-lang | LinkedIn: linkedin.com/in/ujala-agarwal-30aa28283

### PROFESSIONAL SUMMARY

Frontend and product-focused developer with experience building polished, responsive interfaces for live GitHub products including Safety Copilot, ReceiptPulse, LumenStack AI, and Ujala OS Portfolio. Current work emphasizes interaction clarity, reusable design systems, runtime-driven UI, and multi-page product storytelling. Strongest projects combine visual polish with real backend depth. Seeking frontend or full-stack roles focused on user-facing product engineering.

### TECHNICAL SKILLS

|             |                                                                      |
|-------------|----------------------------------------------------------------------|
| Frontend:   | HTML, CSS, JavaScript, Responsive UI, Interaction Design             |
| Full-Stack: | Node.js, Express, REST APIs, JavaScript, Java                        |
| Cloud:      | AWS Lambda, S3, DynamoDB, API Gateway, CloudFront, Cognito, Textract |
| Databases:  | DynamoDB, MySQL                                                      |
| Tools:      | Git, GitHub, Docker (Basics), OpenAI API, Mermaid                    |

### EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                                                                                    |                         |
