

Ujala Agarwal

SOFTWARE ENGINEER | FULL-STACK AND BACKEND DEVELOPER

Bareilly, Uttar Pradesh | +91 7906786403 | agarwalujala3@gmail.com
Portfolio: Ujala OS live mirror | GitHub: github.com/agarwalujala3-lang | LinkedIn: linkedin.com/in/ujala-agarwal-30aa28283

PROFESSIONAL SUMMARY

Software engineer building full-stack, cloud-backed GitHub products with JavaScript, Java, Node.js, Express, REST APIs, AWS Lambda, API Gateway, S3, DynamoDB, Cognito, and Textract. Strongest work sits at the overlap of backend logic, API design, cloud workflows, AI integration, and product-quality user-facing delivery.

TECHNICAL SKILLS

Languages:	Java, JavaScript, C
Web and Backend:	HTML, CSS, JavaScript, Node.js, Express, Responsive UI, REST APIs
Cloud and Services:	AWS Lambda, S3, DynamoDB, API Gateway, IAM, Rekognition, Textract, CloudFront, Cognito
Databases:	DynamoDB, MySQL
Tools:	Git, GitHub, Docker Basics, OpenAI API, Mermaid

CORE STRENGTHS

- Implements API-driven product flows from frontend events to backend storage and review states.
- Keeps code proof visible through GitHub repos, structured project metadata, and live/static demo routes.
- Uses AI assistance where it adds product value, while keeping deterministic logic and source-backed behavior explicit.

EXPERIENCE

CETPA Infotech Pvt. Ltd.	June 2025 - August 2025
Cloud Computing Intern Noida, Uttar Pradesh	
• Built practical AWS service-integration experience across Lambda, S3, DynamoDB, API Gateway, IAM, and Rekognition while supporting cloud application workflows. • Developed and tested serverless backend processes and automation flows, reducing manual intervention by approximately 40-50%. • Practiced deployment basics, service boundaries, and debugging habits needed to move cloud workflows from concept to usable delivery.	

PROJECTS

ReceiptPulse	GitHub
AWS Lambda, S3, DynamoDB, API Gateway, Cognito, Textract, CloudFront, JavaScript	
• Implemented the full stack flow from file upload to stored receipt records using JavaScript, Lambda functions, REST endpoints, and DynamoDB. • Added receipt-only validation, duplicate decision handling, rename/delete actions, and history retrieval for a complete review workflow. • Structured UI/API behavior around private user sessions, error states, and repeatable receipt-management flows.	
Live: https://agarwalujala3-lang.github.io/ReceiptPulse/ Repo: https://github.com/agarwalujala3-lang/ReceiptPulse	
LumenStack AI	GitHub
Node.js, Express.js, JavaScript, OpenAI API, Mermaid, HTML, CSS	
• Built a Node.js/Express analysis workflow that transforms repository input into architecture summaries, Mermaid diagrams, and guided technical insight. • Added compare mode and export paths so engineers can inspect differences and keep generated findings portable. • Kept static parsing and AI explanation as separate layers to reduce vague or unsupported output.	
Live: https://lumenstack-ai.onrender.com/ Repo: https://github.com/agarwalujala3-lang/LumenStack-AI	
Safety Copilot	GitHub
React, Vite, Node.js, AWS API Gateway, AWS Lambda, CloudFront, Flutter	
• Built trusted-circle, live trip, SOS, and silent SOS workflows across web and Android-facing surfaces. • Implemented API-oriented client behavior for alerts, telemetry, acknowledgments, and incident state transitions. • Kept high-risk actions clear through explicit UI states and structured workflow boundaries.

EDUCATION

Shri Ram Murti Smarak College of Engineering and Technology
Bachelor of Science in Computer Science | Bareilly, Uttar Pradesh

Completed May 2026

CERTIFICATIONS AND TRAINING

- Cloud Computing Internship Completion Certificate - CETPA Infotech Pvt. Ltd.
- IBM Introduction to Large Language Models
- IBM Getting Started with Artificial Intelligence
- IBM SkillsBuild AI Campus Connect Bootcamp - Capstone Project Participant
