## BTECH CSE FRESHER | BACKEND DEVELOPER | NODE.JS AND AWS

Bareilly, Uttar Pradesh | +91 7906786403 | agarwalujala3@gmail.com  
Portfolio: ujala-portfolio | GitHub: github.com/agarwalujala3-lang | LinkedIn: linkedin.com/in/ujala-agarwal-30aa28283

### PROFESSIONAL SUMMARY

BTech CSE fresher focused on backend development, REST APIs, Node.js/Express services, and AWS serverless workflows. Built project workflows for authenticated upload, OCR extraction, repository analysis, and structured data storage using Lambda, API Gateway, S3, DynamoDB, Cognito, and Textract.

### TECHNICAL SKILLS

|                  |                                                           |
|------------------|-----------------------------------------------------------|
| Languages:       | Java, JavaScript, C                                       |
| Backend:         | Node.js, Express.js, REST APIs, JSON                      |
| AWS:             | Lambda, API Gateway, S3, DynamoDB, Cognito, Textract, IAM |
| Databases:       | MySQL, DynamoDB                                           |
| Frontend Basics: | HTML, CSS, Client-Side JavaScript                         |
| Tools:           | Git, GitHub, Docker Basics                                |

### EXPERIENCE

|                                                                                                                                                                                                                                                                               |                         |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------|
| CETPA Infotech Pvt. Ltd.                                                                                                                                                                                                                                                      | June 2025 - August 2025 |
| Cloud Computing Intern   Noida, Uttar Pradesh                                                                                                                                                                                                                                 |                         |
| <ul style="list-style-type: none"><li>Worked with AWS services including Lambda, S3, DynamoDB, API Gateway, IAM, and Rekognition during cloud application tasks.</li><li>Developed and tested basic serverless backend workflows as part of internship assignments.</li></ul> |                         |

### PROJECTS

|                                                                                                                                                                                                                                                                                                                                   |               |
